

Apart from being the world's best and original TC Teak clones, one simple reiterate why MBT Teak plants are the best and incomparable to any other available in the market across the world

S.No	Parameter	MBT TC Teak	Any other Teak available in the market	Rem
1	Price	3X	X	As frequently con
2	Maintenance	Y	Y	Assuming that it's though our plants h mainte
3	After 8th yr	Ready for harvest @25cft per tree (we have a proven track)	Not Ready & no proven track	cultivation to continu 12-15yrs or more a: sellers . Projected company to
4	Land	Ready for next crop after the 8th yr of planting	Locked till harvest	Land cost:
5	Money	ROI ready for next investment after the 8th year	Investment continues*	*Assuming that t harvested after th calculate the minimum to be incurred duri period till harvest (Caretaker's salary + E + ploughing etc): Rs. Rs. 9,60

An initial difference in the plant cost is worth accepting as MBT TC Teak is an original Best Clo and excellent returns on investment.
